**Subject:** FRN Signed and Sent for Publication on Dec. 20th

All--

Just wanted to let you know that Holly Bamford signed the FRN for NOAA late Friday afternoon. We went it to the Federal Register this morning for publication on Friday, Dec. 20th as we had planned.

Good afternoon All:

FYI that I reached out to NOAA's Oregon delegation reminding them of the joint NOAA/EPA briefing on Tuesday. I requested an RSVP for today.

So far, only staff from the Merkley and Bonamici offices have confirmed their attendance either in-person or via conference call. A staffer from Bluemenauer's office will be briefed by her colleague in Bonamici's office.

I hope this information gives everyone a sense of the level of potential Hill participation/interest.

If I receive additional confirmations, I will keep everyone abreast.

Good afternoon all:

FYI - The dial-in information for Tuesday's (December 17th) briefing is Non-Responsive

The line will be accessible from 2:00pm-3:30pm EST.

Please share with your colleagues if someone was inadvertently left off the list.

Thanks,

Thanks Don for updating the Q&A on the funding penalties. I've updated two other places in the rollout that also discuss the funding issues (key messages and background) to reflect your changes as well.

In addition, I updated the list of NOAA spokespeople, removing Margaret and substituting Kim Kratz for Will Stelle. Joelle will be much more available than Margaret if we need a NOAA person to speak about the Oregon Coastal Nonpoint Program and overall decision and similarly, Kim has better availability than Will if the media has any NMFS related questions.

I've also attached a slightly updated version of the Hill Briefing talking points as well to reflect the change to the funding/penalty discussion.

All,

As discussed late yesterday, we have tweaked the answer to the question on consequences of disapproving Oregon's CNP; see p. 6. Clean & track changes versions are attached. This version is otherwise identical to the version that Allison sent around late yesterday (with the changes to the last Q&A on Agriculture accepted).

I look forward to our communications coordination call today at 3:30-4:30 ET (12:30-1:30 PT).

**Subject:** Revised OR 6217 Hill Briefing Talking Pts & Rollout Plan

All--

For our communications coordination call tomorrow from 3:30-4:30 ET (12:30-1:30 PT) on the Oregon Coastal Nonpoint Program Rollout, please see revised talking pts for the Hill briefing and updated rollout plan. I integrated all

comments I received into one draft. Changes are reflected in redline strike out version and I included a clean copy as well. Note that I added a new Q&A to the rollout plan to have some more detail on the main ag concerns we've heard readily available. I took the language directly from the decision doc.

I hope most will be able to make the call tomorrow:

**Non-Responsive**

Our Leg. Affairs spoke with Bonamici's office and they are fine with an All Interested Staff Briefing for the OR Delegation on December 17th, 2-400pm. Therefore, we are aiming for **December 17th, 2-400pm**. Leg. Affairs is working on finding room on Hill and call-in for those not able to attend in person.

We can discuss more on our coordination call on Thurs. And thanks to everyone that provided comments on the draft talking points. I'll go over today and send an updated version out.

All--

I've drafted some talking points for Joelle to deliver during the Hill Briefing. They are basically pulled from the messages we developed for the roll out plan with a few additional talking points pulled from a draft that Christine and Marion sent around to some of us so should be a straight forward review.

Comments appreciated by COB Wed. Dec. 11th so I can revise prior to our communications coordination call on the 12th.

EPA program folks, please forward to any leg. affairs or other staff that should be in the loop. The group is getting big as we get closer to official rollout and its hard to keep track of everyone that should be cc'ed these days.

Have a great weekend!

Allison
